Liquid	
Handling procedure	Yes: ____ No: ____

## Confirmation

We hereby declare that the above-mentioned product is cleaned and free of hazardous remains on the inner and outer surfaces.

The returned product can be handled without any danger for humans or the environment.

This form is obligatory for all repair and claim orders. Without this confirmation, returned goods cannot be entered into our service process. Should the returned product be cleaned insufficiently, we will have to bill out the costs for a secondary decontamination.

Handling procedure that describes company-instructions in how Pump and Liquid are handled according to safety. Description must be added, if possible.

Please attach this form with adds, like datasheet for Liquid to the parcel (together with the delivery note).
